

## Configuring and Connecting to SSL VPN for

## Mac OS X

- 1. To obtain VPN connectivity for the CLS network, you will want to download the "SonicWALL Mobile Connect" software in the App Store.
- 2. You will first click on the "App Store" icon, typically located on the Dock.
- Once the App Store is open, please type 3. in "SonicWALL Mobile Connect" and hit enter.
- When you see the software, please click 4. on 'Get" (you may need to authenticate using your personal Apple ID and password that you use to download other Apps in the App Store).
- 5. After the software is finished downloading, you can click on the grey button that says "Open."

Once the software opens, it should
